Nexus Technologies - Employee Travel and Meal Guidelines

Nexus Technologies - Employee Travel and Meal Guidelines

SECTION 1: CORPORATE TRAVEL RESERVATIONS

All business travel including airline tickets, hotel accommodations, and rental vehicles must be booked through the corporate travel management portal (Navan / TripActions). Bookings must be made at least 14 days in advance of domestic travel to secure cost-effective pricing.

SECTION 2: AIR TRAVEL POLICY

Economy class bookings are standard for all domestic and international flights with duration under 6 hours. For intercontinental or transatlantic flights exceeding 6 continuous hours in the air, employees are authorized to book Premium Economy. Business class requires written pre-approval from the CFO.

SECTION 3: DAILY MEAL PER-DIEM ALLOWANCES

When traveling on official business, employees receive a daily meal allowance of up to $75.00 USD (or local currency equivalent):

- Breakfast: $15.00

- Lunch: $25.00

- Dinner: $35.00

Allowances may be balanced across the day (e.g. $10 breakfast and $40 dinner). Itemized receipts are required for all meals.
