Nexus Technologies - Work From Home & Remote Work Policy (HR Department)

Nexus Technologies - Work From Home & Remote Work Policy (HR Department)

SECTION 1: HYBRID WORK MODEL FRAMEWORK

Nexus operates a 3-2 hybrid workplace policy. Employees assigned to physical office hubs (Austin, Seattle, London) work in-office three days a week (typically Monday, Wednesday, and Thursday) and may work remotely on Tuesdays and Fridays. Department directors may adjust team anchor days based on project requirements.

SECTION 2: FULL-REMOTE EXCEPTION APPROVALS

Employees requesting 100% remote work status must have completed a minimum of 6 months of service with a performance rating of 'Exceeds Expectations' or higher. Full-remote transitions require written approval from the Department Vice President and Chief People Officer to assess payroll tax, legal nexus, and timezone collaboration viability.

SECTION 3: HOME OFFICE ERGONOMIC STIPEND

To ensure a healthy working environment, all permanent employees receive a one-time tax-free home office ergonomic stipend of $750 upon hire. This stipend can be claimed via Expensify for purchasing ergonomic office chairs, standing desks, external monitors, or lighting accessories.

SECTION 4: HIGH-SPEED INTERNET REIMBURSEMENT

Employees working hybrid or remote are eligible for an ongoing monthly broadband reimbursement of $75 to offset domestic high-speed internet expenses. Claims must be submitted bi-monthly with an attached telecommunications service provider invoice.

SECTION 5: REMOTE WORKING FROM ABROAD

Employees in good standing may work outside their designated country of employment for up to 30 calendar days per fiscal year, subject to prior manager notice and HR compliance verification regarding international tax residence and export control laws.
