Nexus Technologies - Corporate Expense Reimbursement Policy

Nexus Technologies - Corporate Expense Reimbursement Policy

SECTION 1: GENERAL PRINCIPLES AND FILING TIMELINES

All business-related expenses incurred on behalf of Nexus Technologies must be legitimate, reasonable, and necessary. Expense claims must be submitted via the corporate Brex/Expensify system within 30 calendar days from the date of expenditure. Claims submitted after 60 days will be rejected unless accompanied by executive CFO exemption approval.

SECTION 2: RECEIPT THRESHOLDS AND DOCUMENTATION

Itemized receipts showing transaction date, vendor name, item description, and total amount paid are strictly required for any expenditure exceeding $25.00 USD. Credit card statements without itemized receipts will not be accepted. Alcoholic beverages must be itemized separately and are restricted to team dinners pre-approved by a Director.

SECTION 3: LODGING AND GROUND TRANSPORTATION LIMITS

- Domestic Lodging: Standard hotel room cap is $225 per night (exclusive of local taxes). For high-cost metropolitan markets (San Francisco, New York City, London, Zurich, Tokyo), the allowable cap is $340 per night.

- Ground Transportation: Employees should utilize ride-sharing services (Uber/Lyft Standard) or public transit. Premium ride tiers (Uber Black, SUV) are non-reimbursable. Personal vehicle business mileage is reimbursed at the official IRS standard rate of $0.67 per mile.

SECTION 4: AUDIT PROCEDURES AND FRAUD PREVENTION

The Internal Audit department randomly samples 15% of all monthly expense claims for compliance verification. Any deliberate submission of fraudulent, inflated, or duplicated expense claims constitutes gross misconduct resulting in immediate termination and potential legal prosecution.
