Nexus Technologies - Global Code of Business Conduct & Ethics

Nexus Technologies - Global Code of Business Conduct & Ethics

SECTION 1: COMMITMENT TO MUTUAL RESPECT AND DIVERSITY

Nexus is dedicated to maintaining a collaborative, harassment-free workplace. We do not tolerate discrimination or harassment based on race, color, gender, sexual orientation, religion, disability, or veteran status. Any form of bullying, intimidation, or retaliation will result in immediate disciplinary action up to termination.

SECTION 2: CONFLICT OF INTEREST DISCLOSURES

Employees must avoid situations where personal interests conflict with their obligations to Nexus. Outside employment, board advisory roles, or consulting engagements require prior written disclosure and clearance from the Legal and Compliance Department. Personal investments exceeding 1% in direct competitors or suppliers are prohibited without General Counsel approval.

SECTION 3: CONFIDENTIAL INFORMATION AND INTELLECTUAL PROPERTY

All software source code, customer records, technical specifications, and strategic roadmaps developed during employment belong exclusively to Nexus Technologies. Employees must safeguard proprietary information and never disclose internal data to third parties.

SECTION 4: RESPONSIBLE USE OF AI TECHNOLOGIES

Employees utilizing generative AI tools must adhere to company security guardrails. Uploading sensitive company source code, confidential financials, or customer Personally Identifiable Information (PII) into public, unvetted AI models is strictly prohibited. Only enterprise-approved AI copilot instances may be used for corporate tasks.
